

Richland One CRP SuccessMaker Assignments
2008-2009

Assignments will consist of three areas of content:

1. Skills based on regular day Grouping by Areas of Difficulty to address specific needs
2. Skills on grade level to give students experience on higher levels
3. Lessons in ExploreWare to provide enhanced opportunities for new learning experiences

To accomplish the above, the managers will follow a district plan for creating assignments. The only assignments to be done during CRP time are those designated as being for after school.

1. The manager will print the Grouping by Areas of Difficulty Report for the CRP groups, choosing the regular day assignment of Foundations courses (IR, RW, MCS2). From this report, the manager will determine skills to be addressed. The manager will create a custom course for each grade level with the identified skills as the content strands. The level of each assignment will be determined by the manager. The IPM is off.
2. The manager will create assignments for each grade level in the grade appropriate Foundations courses. The manager will determine the content, which may contain all strands or selected strands. The assignment will be given on the current grade level to each group and may continue throughout the year. The IPM is off.
3. The manager will create grade appropriate custom courses using ExploreWare content. Because of the length of the reading ExploreWare lessons, students may work in the assignment for the duration of the year on the weeks specified for ExploreWare assignments. The level of the assignment will be determined by the manager. The IPM is off.

SuccessMaker CRP Assignment Calendar

Weeks	Assignment Content	Assignment Name	
1st 9 Weeks			
Sept. 9-11	Foundations	AS Mega Math n AS Reading Rodeo n	*
Sept. 16-18	Foundations
